

GeoAmericas 2020

4th PAN AMERICAN CONFERENCE ON GEOSYNTHETICS
26-29 APRIL 2020 • RIO DE JANEIRO • BRAZIL

Professionals internationally renowned for their essential contribution to the development of geosynthetics, have already confirmed their presence as **Keynote Lecturers in GeoAmericas 2020**.

Still have questions about the relevance of **GeoAmericas 2020**? See below six reasons to not miss the Largest Geosynthetics Conference of the Americas:

Denys Parra

Dov Leshchinsky

Barry R. Christopher

Richard Brachman

Jie Han

Kerry Rowe

The deadline to submit your
abstract for GeoAmericas 2020 is
26 June 2019!!

Do not miss this opportunity and share your research and case studies with the entire international community. See below the topics that will guide the themes of the technical sessions and the other activities in the event program:

Geosynthetics Solutions for a Fast-Changing World

- Case Histories
- Design Approaches and Numerical Solutions
- Drainage and Filtration
- Durability and Long Term Performance
- Geosynthetics in Environmental Applications
- Geosynthetics in Dynamic Applications
- Geosynthetics in Hydraulic Applications
- Geosynthetics in Mining Applications
- Geosynthetics in Highways and Railways
- Geosynthetics Properties
- Geosynthetics Solutions for Natural Disasters
- Innovative Uses and Solutions
- New Geosynthetic Products
- Reinforced Walls and Slopes
- Reinforcement of Embankments and Unpaved Roads
- Seismic Analysis and Applications of Geosynthetics Solutions
- Soil-Geosynthetic Interaction
- Sustainability of Earth Works with Geosynthetics
